

Health Care Management

This program is offered **Online**.

Program Description

SJVC's Bachelor of Science in Health Care Management may be completed in 70 weeks. The program is designed for healthcare professionals who have graduated from an accredited associate degree program who want to advance their career. The Bachelor of Science Degree in Health Care Management affords excellent opportunities for professional growth and development with the necessary education in leadership and management, finance, and human resources.

Program Student Learning Outcomes

Upon completion of this program, the successful student will be able to:

1. Demonstrate effective communication and presentation skills for diverse audiences
2. Critically evaluate information from multiple sources for application in professional settings
3. Apply current research and data interpretation techniques to identify and evaluate solutions for emergent issues impacting the profession
4. Apply strategic planning decision-making to improve outcomes in healthcare organizations
5. Analyze the role of leadership in the health care delivery system, including operational and financial aspects

Admission Requirements: To be considered for admission to the Health Care Management Program, applicants must meet the following requirements:

- Hold an Associate of Science in an approved health care (or related) field from a regionally or nationally accredited college or institution
- Successful completion of a minimum of 65.0 units of lower-division courses

Graduation Requirements: Successful completion of the courses listed below with a grade of "C" or higher.

Credential and Professional Certifications

Graduates earn a Bachelor of Science degree in Health Care Management.
