In addition to collection action, non-payment of certain charges may result in the disconnection of your local service. Examples of charges - for which failure to pay cannot result in the disconnection of local service - include: non-communications related services, any charges billed on behalf of a third party, any Category III (fully competitive) or other unregulated competitive services. Unregulated competitive services include services de-tariffed due to statutory requirement, federal preemption, or insignificant marketing power.

Past Due Amounts

PLEASE ENCLOSE THE REMITTANCE SLIP TO ENSURE THE ACCURATE POSTING OF YOUR PAYMENTS TO YOUR ACCOUNT. ALSO PLEASE BE ADVISED INTEREST OF 1.5% PER MONTH (OR THE MAXIMUM AMOUNT PERMITTED BY LAW) WILL BE CHARGED ON PAST DUE AMOUNTS BEGINNING THE 31ST DAY FOLLOWING THE INVOICE DATE.

To complete calls from a cellular or mobile phone, callers may dial area code + telephone number or 1 + area code + telephone number whenever placing a call from a phone number with the 805 or 820 area code.

WHEN WILL THE NEW DIALING PROCEDURE BECOME MANDATORY?

Beginning June 2, 2018, you must use the new dialing procedure, as described above for all calls, even for local calls. On and after this date, if you do not use the new dialing procedure, your calls will not be completed and a recording will instruct you to hang up and dial again using the new dialing procedure.

Beginning June 30, 2018, new telephone lines or services in the 805 area may be given numbers from the new 820 area code.

WHAT WILL YOU NEED TO DO?

In addition to changing your dialing procedure, all services, automatic dialing equipment, or other types of equipment that are programmed to dial 7 digits will need to be reprogrammed to use the new dialing procedures. Some examples are life safety systems and medical monitoring devices, ankle monitors, PBXs, fax machines, Internet dial-up numbers, alarm and security systems or gates, speed dialers, call forwarding settings, voicemail services, stored telephone numbers in contacts lists on wireless or cordless phones, and other similar services or equipment. You may also want to check your personal and business stationery and checks, advertising materials, websites, contact information, and personal or pet ID tags to ensure the area code is included in the telephone number.

WHAT WILL REMAIN THE SAME?

- Your telephone number, including current area code, will not change.
- The price of a call, coverage area, or other rates and services will not change due to the overlay.
- What is a local call now will remain a local call regardless of the number of digits dialed.
- You can still dial just three digits to reach 911, as well as 211, 311, 411, 511, 611, 711 and 811.

WHO MAY YOU CONTACT WITH QUESTIONS?

If you have any questions regarding information provided in this notice, please call please contact XO Communications Customer Care at myXO.com or at the

CA CHANGES 911 SURCHARGE EFFECTIVE JANUARY 1, 2020

Get ready to change the way you dial your local calls! To ensure a continuing supply of telephone numbers, the new 820 area code will be added to the area served by area code 805. This process is known as an area code overlay. The overlay will require all calls to be completed using a new dialing procedure.

Effective January 1, 2020, a new law in the state of California, Senate Bill 96, changes the Emergency Telephone Users 911 Surcharge from a percentage-based surcharge of .75% to a flat rate surcharge amount of \$0.30 per access line per month.

WHAT IS AN AREA CODE OVERLAY?

TO ALL OF OUR CUSTOMERS:

An area code overlay is the addition of another area code (820) to the same geographic region served by an existing area code (805). An overlay does not require customers to change their existing area code, but does require customers to use a new dialing procedure to complete telephone calls. When an overlay is implemented, customers must dial "1" followed by the area code and the seven-digit telephone number to complete every call, including calls within the same area code.

XO HAS UPDATED THE CPNI CLAUSE

Effective January 8, 2018, the additional Customer Proprietary Network Information ("CPNI") clauses below will apply to the XO online General Terms and Conditions and the Master Services Agreement.

Protecting Customer Proprietary Network Information (CPNI):

XO may access, use, and disclose Customer CPNI as permitted or required by applicable laws, rules, and regulations or this Agreement. XO may also disclose Customer CPNI (including, without restriction, call detail) to representatives authorized by Customer ("Authorized Customer Representatives" as defined herein), via any means authorized by XO, including, without restriction: to the Customer's email address(es) of record (if any) or other email addresses furnished by Authorized Customer Representatives, to the Customer's telephone number(s) of record or other telephone numbers provided by Authorized Customer Representatives, to the Customer's postal (US Mail) address(es) of record or to other postal addresses furnished by Authorized Customer Representatives, or via XO's on-line customer portals or other on-line communication mechanisms. "Authorized Customer Representatives" include Customer employees, Customer agents, or Customer contractors, other than XO, who establish or have established through reasonable procedures developed

CPNI is information that identifies the quantity, technical configuration, type, destination, location, and amount of use of a Customer's telecommunications and interconnected VoIP services purchased from a provider, and related local and toll billing information. XO respects our Customers' rights to the protections afforded by these laws.
