

Train for a rewarding career as a Pharmacy Technician

SJVC's Pharmacy Technology and Pharmacy Technician programs prepare students to work under the direct supervision of a Registered Pharmacist as part of a team responsible for carrying out a doctor's pharmaceutical orders.

Pharmacy Technicians assist in the various activities of compounding, distributing and dispensing of medications. They are trained to measure, mix, count out, label, and record amounts and dosages of medications according to prescription orders.

Training includes a balance of classroom and lab instruction, as well as an externship component, which allows students experiential learning in an actual clinical environment.

Training Today for a Better Tomorrow

Hands-On Training

Students Learn:

- Prescription processing
- Computer data entry
- Pharmacy law & ethics
- Clinical applications

Credential & Professional Certifications

Graduates earn a Certificate of Completion in Pharmacy Technology or an Associate of Science degree in Pharmacy Technician and are eligible to apply for licensure with the California State Board of Pharmacy (see below). Students qualify to take the Pharmacy Technician Certification Exam (PTCE) upon successful completion of practice exams administered during their course of study and with the approval of the Pharmacy Liaison. Students also earn their HIPAA Certification.

State Licensure

Graduates are eligible to apply for licensure with the California State Board of Pharmacy providing they meet the requirements as specified by the Board, including a Department of Justice criminal background check and databank query to determine if an act has been committed that constitutes grounds for denial of licensure. This license is required in the State of California for employment as a pharmacy technician.

Career Information

A well-trained pharmacy technician can expect to work in a professional environment as an integral part of a health care team. These skilled technicians are expected to perform the following job duties:

- Mix pharmaceutical preparations according to written prescriptions
- Add measured drugs or nutrients to IV solutions under sterile conditions
- Transfer medication from vials to the appropriate number of sterile, disposable syringes
- Compute charges for medication dispensed to hospital patients
- Prepare and process medical insurance claim forms and records
- Inform supervisors of stock need and shortages

Admissions Requirements

- High School diploma or equivalent
- Official transcript from high school or GED/equivalent
- Wonderlic SLE assessment score of 12 or higher

Applicants must have reliable plans for transportation, child care and time to devote to school work outside of scheduled class hours.

Course Listing*

Core Course Requirements

Course ID	Course Name	Credit Units
PHR 15	Pharmacy Science and Applications 2	5.0
PHR 20	Pharmacy Law and Ethics	3.0
PHR 25	Pharmacy Records and Documentation	3.0
