

Build a career in the construction industry

Construction Management

San Joaquin Valley College's Construction Management (CM) program provides graduates with the technical and managerial skills needed in today's commercial and residential construction industry.

Students will learn to plan and direct activities concerned with the construction and maintenance of structures, facilities, and systems. They may also become involved in the development of a construction project as well as oversee its organization, scheduling and budgeting.

Graduates are prepared for construction management responsibilities creating the opportunity to move into supervisory roles.

Hands-On Training

Students Learn:

- Architectural design theory
- Estimating & bidding
- Scheduling & control of a project
- Construction communication procedures

Credential and Professional Certifications

Graduates earn an Associate of Science degree in Construction Management and can go on to work in a variety of fields:*

- Concrete Foreman
- Construction Area Manager
- Construction Foreman
- Construction Manager
- Construction Superintendent
- General Contractor
- Job Superintendent
- Project Executive
- Project Manager
- Project Superintendent

Graduates also earn an OSHA 10 Hour Construction Outreach Training Completion Card.
