Train for a rewarding career as a

Dental
Assistant

SJVC's Dental Assisting program includes all aspects of working with a dentist including patient care, office and laboratory duties.

Our balance of hands-on experience with classroom instruction covers dental assisting skills and related theory, as well as Registered Dental Assisting (RDA) licensure preparation.

Whether training for a career chairside or an administrative position, students are well prepared at the program's completion.

Your trusted source for hands-on training.

SJVC excels at in-person, hands-on learning in high tech laboratory environments that will enable you to transition to a career with real-world experience.

Students Learn:*

- Dental Board laws and regulations
- CPR, Dental Radiology, Infection Control, Coronal Polish, Pit and Fissure Sealants
- Patient care duties and dental procedures
- Restorations, fixed prosthodontics, endodontics and orthodontic treatment
- Communication and critical analysis
- Professional skills, attitude and appearance

*See college catalog for complete student learning outcomes for this program.

At SJVC, we value:

Integrity

Credential and Professional Certifications

Graduates earn a Certificate of Completion and additional certifications:

- Dental Radiation Safety
- CPR
- Infection Control
- Dental Law and Ethics

With the completion of coronal polish and pit and fissure sealants, students are eligible to take the Dental Board of California Examination for state licensure.**

Admissions Requirements

- High School diploma or equivalent
- Wonderlic SLE assessment score of 12 or higher
- Applicant must be age 18 by their expected start date

Applicants must have reliable plans for transportation, child care and time to devote to school work outside of scheduled class hours.

See the SJVC College Catalog for additional information on institutional admission requirements.

Career Opportunities

Almost all dental assistants work in dentists' offices. Most work full time*. These skilled professionals are expected to perform the following job duties typically:***

- Preparing patients for treatment
- Take dental impressions
- Fluoride treatments
- Expose and process x-rays
- Sterilize or disinfect instruments

SJVC's Dental Assisting program prepares students for licensed Registered Dental Assisting (RDA) functions, which include coronal polishing and pit and fissure sealants.
