Train for a rewarding career as a

Respiratory
Therapist

SJVC's Respiratory Therapy (RT) program prepares students to be a member of a health care team that evaluates, treats and manages patients with respiratory illnesses and other cardiopulmonary disorders through demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of respiratory care practice as performed by registered respiratory therapists (RRTs).

In addition to performing respiratory care procedures, respiratory therapists are involved in clinical decision-making and patient education.

Your trusted source for hands-on training.

SJVC excels at in-person, hands-on learning in high tech laboratory environments that will enable you to transition to a career with real-world experience.

Students Learn:*

- Clinical performance as an advanced-level Respiratory Therapist
- Critical thinking and judgment skills
- Professional behavior consistent with a Respiratory Therapist
- Basic Life Support (BLS), Advanced Cardiac Life Support (ACLS), Pediatric Advanced Life Support Provider (PALS), and Neonatal Resuscitation Provider (NRP) certifications
- Philosophies of professional growth in continued education
- Professional appearance, attitudes and behavior
- Communication concepts, critical analysis, and ethical behavior appropriate to interpersonal and professional interactions

*See college catalog for complete student learning outcomes for this program.

At SJVC, we value:

- Integrity
- Family
- Professionalism
- Communication
- Diversity
- Success

Credential and Professional Certifications

Graduates earn an Associate of Science degree and the following certifications: Basic Life Support (BLS); Advanced Cardiac Life Support (ACLS); Pediatric Advanced Life Support (PALS); and Neonatal Resuscitation Provider (NRP).

Credentialing

Graduates are eligible to sit for the National Board for Respiratory Care (NBRC): Therapist Multiple Choice Exam (TMC). Upon achieving the high cut score on the TMC, graduates will be eligible to take the Clinical Simulation Exam (CSE). Upon successfully passing the CSE, the graduate earns the Registered Respiratory

Therapist (RRT) credential. The RRT credential is the minimum entry requirement for licensure in California.

Graduates who earn the RRT credential by the National Board for Respiratory Care and are licensed by the California Respiratory Care Board are authorized to use the title “Licensed Respiratory Care Practitioner,” which is a requirement to work in this field.

Earned NBRC credentials are nationally recognized and recognized by all states.

Admissions Requirements

- High School diploma or equivalent
- Wonderlic SLE assessment score of 20 or higher
- Applicant must be in good health and physically fit
- Applicant must be age 18 by their expected graduation date

Applicants to the Respiratory Therapy program are selected based on points earned in an evaluation process that includes assessment, transcript review, professional reference and personal interview.

Applicants must have reliable plans for transportation, child care and time to devote to school work outside of scheduled class hours.

See the SJVC College Catalog for additional information on institutional admission requirements.

Programmatic Accreditation

The Associate of Science Degree Respiratory Therapy program at the following SJVC campuses is accredited by the Commission on Accreditation for Respiratory Care (www.coarc.com): Bakersfield, CoARC #200425; Ontario, CoARC #200495; Rancho Cordova, CoARC #200518; Temecula, CoARC #200607; Visalia, CoARC #200389.

Career Opportunities

Well-trained respiratory therapists work in hospitals, medical equipment companies, home care agencies, physicians’ offices, or managed care organizations; as well as specialized areas such as sleep and pulmonary function labs. These skilled professionals typically perform the following job duties:

- Sample arterial blood for blood gas analysis
- Perform pulmonary function testing
- Set up and operate devices, such as mechanical ventilators
- Provide life support measures
- Deliver respiratory medications & gases
