Train for a rewarding career in

Surgical Technology

Surgical Technologists assist in operations under the supervision of surgeons, registered nurses, or other licensed surgical personnel. They help set up the operating room, prepare and transport patients for surgery, adjust lights and equipment, pass instruments and other supplies to surgeons and surgeon's assistants, hold retractors, cut sutures, and help count sponges, needles, supplies, and instruments.

Before the surgeon scrubs in, the surgical technologist will prepare the operating room and create a sterile field. Surgical technologists set instruments out on the tables for the procedures. They will cover the patient with drapes and prepare medications and sterile solutions, and, they may position the patient on the

table. After procedures, surgical technologists may transfer the patient to the recovery room and restock the operating room. Instruction includes an extensive clinical rotation to give students hands-on experience in a surgical environment.

Your trusted source for hands-on training.

SJVC excels at in-person, hands-on learning in high tech laboratory environments that will enable you to transition to a career with real-world experience.

Students Learn:

- Properly assemble surgical instruments and equipment
- Create and maintain a sterile field
- Anticipate the surgeon's needs during operation
- Provide pre, intra and post-operative care
- Safely handle and care for specimens

At SJVC, we value:

Integrity
Family
Professionalism
Communication
Diversity
Success

Credential and Professional Certifications

Graduates of this program earn an Associate of Science degree and the following certifications: CPR, HIPAA, and Blood Borne Pathogens. Graduates are also eligible to apply to the National Board of Surgical Technology and Surgical Assisting (NBSTSA) to sit for the Certified Surgical Technologist (CST) national certification exam.*

Program Accreditation

The Surgical Technology program delivered at SJVC's Bakersfield, Fresno, Rancho Cordova and Temecula campuses is accredited by the Commission on Accreditation of Allied Health Education Programs

(www.caahep.org) upon the recommendation of Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC-STSA).

Admissions Requirements

- ❑ High School diploma or equivalent
- ❑ Applicant must be age 18 by their expected graduation date
- ❑ Applicant must be in good health and physically fit

Applicants to the Surgical Technology program are selected based on points earned in an evaluation process that includes assessment, transcript review, professional reference and personal interviews.

See the SJVC College Catalog for additional information on institutional admission requirements.

Applicants must have reliable plans for transportation, child care and time to devote to school work outside of scheduled class hours.

Career Opportunities

Surgical technologists work under the supervision of a surgeon, registered nurse, or other licensed surgical personnel in a clean, brightly lit environment, communicating with the other surgical staff. They stand for most of the day and perform duties that require concentration for extended periods of time.

Surgical technologists employed in hospitals may work or be on call during nights, weekends, and holidays. Most surgical technologists work full time, and may work in the following environments:

- Hospital operating rooms
- Out-patient surgery centers
- Physician offices
- Oral surgery centers
