

Bachelor of Science in Construction Management

The Bachelor of Science degree in Construction Management program prepares graduates to competitively enter the construction management field.

Students are provided with comprehensive instruction on a wide variety of topics available to the construction industry, and are trained to prepare competitive project proposals, supervise construction sites, and effectively communicate with clients and workers.

Students are prepared for the management responsibilities they will face on the job at construction sites.

Freshman applicants (those entering without a previously earned Associate of Science degree in Construction Management) may complete this program in 135 weeks.

A bridge option that requires previous completion of an Associate of Science degree in Construction Management is also available and may be completed in 75 weeks.

Students Learn:

- **Demonstrate** effective communication and presentation skills for diverse audiences.
- **Critically** evaluate information from multiple sources for application in construction management.
- **Identify** emergent issues impacting the construction profession and evaluate solutions utilizing relevant data interpretation techniques.
- **Apply** critical thinking to enhance decision-making skills related to the management of residential, commercial, private, and public projects.
- **Apply** advanced estimating, scheduling, and financial management skills to ensure the successful outcomes of construction projects.
- **Utilize** advanced knowledge of legal and environmental factors to create safe, sustainable, ethical, legally compliant, and lawfully administered project.

At SJVC, we value:

Integrity
Family
Professionalism
Communication
Diversity
Success

Admissions Requirements

To be considered for admission to the Bachelor of Science degree in Construction Management program, applicants must meet the following requirements:

Freshman Applicants

- Must meet all institutional admissions requirements as set forth in Section 2 of the College Catalog

Transfer Applicants

- Hold an Associate of Science degree in Construction Management from an institution of higher learning accredited by an agency that is recognized by the United States Department of Education.
 - All incoming course credit is subject to evaluation for equivalency pursuant to the Transfer of Credit policy as set forth in Section 2 of the College Catalog
- Have successfully completed a minimum of 60.0 units of lower-division coursework.
