

Train for a rewarding career in Surgical Technology

Surgical Technologists assist in operations under the supervision of surgeons, registered nurses, or other licensed surgical personnel. They help set up the operating room, prepare and transport patients for surgery, adjust lights and equipment, pass instruments and other supplies to surgeons and surgeon's assistants, hold retractors, cut sutures, and help count sponges, needles, supplies, and instruments.

Before the surgeon scrubs in, the surgical technologist will prepare the operating room and create a sterile field. Surgical technologists set instruments out on the tables for the procedures. They will cover the patient with drapes and prepare medications and sterile solutions, and, they may position the patient on the table. After procedures, surgical technologists may transfer the patient to the recovery room and restock the operating room.

Instruction includes an extensive clinical rotation to give students hands-on experience in a surgical environment.

Training Today for a Better Tomorrow

Hands-On Training

Students Learn To:

- Properly assemble surgical instruments and equipment
- Create and maintain a sterile field
- Anticipate the surgeons needs during operation
- Provide pre, intra and post-operative care
- Safely handle and care for specimens

Credential and Professional Certifications

Graduates of this program earn an Associate of Science degree and the following certifications: CPR, HIPAA, and Blood Borne Pathogens. Graduates are also eligible to apply to the National Board of Surgical Technology and Surgical Assisting (NBSTSA) to sit for the Certified Surgical Technologist (CST) national certification exam.*

SJVC prepares students to take appropriate certification and licensure exams related to their individual majors. The College does not guarantee students will successfully pass these exams or be certified or licensed as a result of completing the program.

Program Accreditation

The Surgical Technology program delivered at SJVC's Bakersfield, Fresno, Rancho Cordova and Temecula campuses is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC-STSA).

**Graduates who pass the certification exam are authorized to use the credential Certified Surgical Technologist (CST).*

Career Information

Surgical technologists work under the supervision of a surgeon, registered nurse, or other licensed surgical personnel in a clean, brightly lit environment, communicating with the other surgical staff. They stand for most of the day and perform duties that require concentration for extended periods of time.

Surgical technologists enjoy job stability, a good salary and a flexible work schedule, including some on-call hours. They can expect to work in:

- Hospital operating rooms
- Out-patient surgery centers
- Plastic and reconstructive surgery centers
- Birthing centers
- Oral surgery centers
