

# Computer Systems Administration

Learn skills today for the technology of tomorrow

SJVC's Computer Systems Administration (CSA) program provides an in-depth study of the operating systems, applications and network elements of today's businesses. The focus is on Microsoft®, CompTIA®, and Cisco® certifications.

## Students Learn

- Computer hardware and operating systems
- Troubleshooting and client support
- Microsoft® and Cisco® networking technologies
- Network security and maintenance

Coursework prepares you to test for multiple certifications in computer knowledge proficiency. All first-round testing expenses are included with tuition.

## Professional Certifications

Graduates earn an Associate of Science Degree and are eligible to take exams for CompTIA®, Microsoft®, and Cisco® certifications.

## Career Information

Today's businesses rely on network administrators to keep systems running smoothly. These computer specialists are responsible for many important duties including:

- Install and maintain client and server operating systems
- Set up and administrate computer networks
- Maintain intranet and extranet infrastructure
- Manage help desk and provide user support
- Implement network security

## Admission Requirements

Admission to the CSA program requires:

- High school diploma or equivalent
- Wonderlic SLE assessment score of 14 or higher

Applicants must have reliable plans for transportation, child care and time to devote to academic work outside of scheduled class hours.
