**SUPPLEMENT TO THE  
2022 COLLEGE CATALOG**

# SUPPLEMENT TO THE 2022 COLLEGE CATALOG

This document is a supplement to the 2022 College Catalog and is provided for the purpose of notifying students of corrections and/or updates to College policy, programs, courses, admissions and graduation requirements which have occurred since the Catalog's publication.

This is a living document; revisions will be added until publication of the next Catalog.

## Table of Contents

SECTION 2: ADMISSIONS.....	3
TUITION .....	3
STUDENT TUITION RECOVERY FUND .....	13
SECTION 4: INSTITUTIONAL POLICIES .....	13
TEACH-OUT POLICY .....	13
SECTION 7: BACCALAUREATE DEGREE, ASSOCIATE DEGREE, AND CERTIFICATE PROGRAMS .....	14
CONSTRUCTION MANAGEMENT .....	14
CRIMINAL JUSTICE: CORRECTIONS.....	16
RESPIRATORY THERAPY .....	16
SECTION 8: COURSE DESCRIPTIONS .....	16
SECTION 9: ADMINISTRATION AND FACULTY .....	19
BOARD OF GOVERNORS.....	19

# SECTION 2: ADMISSIONS

## TUITION

**REVISION:** Tuition tables have been revised to reflect an increase in the fee required by the State of California to be assessed for the Student Tuition Recovery Fund, effective April 1, 2022. (Catalog p. 25, rev. 2.16.22)

## STUDENT TUITION RECOVERY FUND

**REVISION:** Language regarding the **Student Tuition Recovery Fund (STRF)** has been revised, as set forth below. (Catalog p. 32, rev. 2.16.22)

NOTE: Effective April 1, 2022, the Bureau for Private Postsecondary Education (BPPE) changed the STRF assessment rate from \$0.50 per \$1,000 to \$2.50 per \$1,000 in institutional charges (rounded to the nearest \$1,000 increment.) This fee is non-refundable after a student has exceeded the cancellation period for their program.

## SECTION 4: INSTITUTIONAL POLICIES

### TEACH-OUT POLICY

**REVISION:** The College's Teach-Out Policy has been added, as set forth below. (Catalog p. 50, rev. 2.25.22)

In the event that a decision is made to discontinue an academic program, campus, or the institution, **SJVC** will make every effort to ensure that students have a viable option for completing their programs of study. A teach-out plan will be developed that includes provisions for students to complete their remaining coursework at **SJVC** or another institution of higher education that holds an institutional accreditation by an accreditor recognized by the U.S. Department of Education institution and identifies the timeline for completion. This information will be communicated to students and faculty as soon as reasonably possible. All decisions and actions related to a closure and the subsequent teach-out shall be in accordance with the provisions set forth in the **SJVC** Board of Governors bylaws.

**Adopted by the Board of Governors  
February 2022**

# **SECTION 7: BACCALAUREATE DEGREE, ASSOCIATE DEGREE, AND CERTIFICATE PROGRAMS**

## **CONSTRUCTION MANAGEMENT**

**REVISION:** The Construction Management Associate of Science degree programs at the Ontario campus and via the Online Division have been revised, as set forth below. **This revision is effective with the April 4, 2022 start date.** (Catalog p. 87, rev. 01.19.22)

### **Construction Management**

---

This program is offered through the **Online Division** and at the **Ontario** campus.

#### **Program Description**

The Construction Management program is 60 weeks in length and prepares graduates to manage residential and commercial construction projects. Students are trained to prepare competitive project proposals, supervise construction sites, and effectively communicate with clients and workers. Students are prepared for the management responsibilities they will face on the job at construction sites.

#### **Program Student Learning Outcomes**

Upon completion of this program, the successful student will be able to:

1. Organize, sequence, and manage construction projects with focus on successful outcomes, from predevelopment through project close out
2. Utilize project management tools to evaluate construction project variables, identify challenges, and generate solutions
3. Use communication and presentation skills to communicate with stakeholders and foster trust, teamwork, and effective supervision strategies for diverse audiences
4. Assess potential legal issues in construction projects for liability awareness, prevention, and risk identification
5. Use principles that account for a diverse world, a teachable attitude, and a commitment to professional development and learning
6. Apply appropriate concepts of communication, reasoning, critical thinking, ethical behavior, and interpersonal interaction to personal and professional situations
7. Demonstrate the social skills, professional appearance, attitudes and behavior that employers expect from all **SJVC** graduates

#### **Graduation Requirements**

- Successful completion of the courses listed below
- Successful completion of the Career Services Seminar (CSS 100)

#### **Credential and Professional Certifications**

Graduates earn an Associate of Science in Construction Management.

#### **Graduate Employment**

The following job categories are considered in-field to calculate the graduate employment rates required by the state of California for graduates of the Construction Management program. Detailed information for each Standard Occupational Classification (SOC) can be found at <http://www.onetonline.org/>.

- Construction Managers (11-9021.00)
- Cost Estimators (13-1051.00)
- Purchasing Agents, Except Wholesale, Retail, and Farm Products (13-1023.00)

**Core Course Requirements**

<b>Course ID</b>	<b>Course Name</b>	<b>Credit Units</b>
COMP 101	Computer Literacy and Applications for the Professional	3.0
CON 100	Construction Materials	3.0
CON 107	Construction Blueprints	3.0
CON 115	Applied Mathematics for Construction Management	3.0
CON 117	Construction Documents and Methods	3.0
CON 127	Project Scheduling and Control	5.0
CON 136	Construction and Labor Laws	3.0
CON 138	Estimating and Bidding for Residential and Commercial Projects	5.0
CON 142	Construction Management Supervision	3.0
CON 147	Construction Project Management	5.0

**General Education Course Requirements**

<b>Course ID</b>	<b>Course Name</b>	<b>Credit Units</b>
ENG 121	Reading and Composition – Part A	3.0
ENG 122	Reading and Composition – Part B	3.0
MTH 121	College Algebra – Part A	3.0
MTH 122	College Algebra – Part B	3.0
PHIL 1C	Ethics	3.0
NSC 1	Introduction to Natural Science	3.0
PSY 1	General Psychology	3.0
SOC 1	Introduction to Sociology	3.0
<b>Total</b>		<b>24.0</b>
<b>Program Total</b>		<b>60.0</b>

## CRIMINAL JUSTICE: CORRECTIONS

**REVISION:** The program page for the Criminal Justice: Corrections program has been updated to reflect that this program is not currently enrolling new students. (Catalog p. 89, rev. 2.16.22)

## RESPIRATORY THERAPY

**CORRECTION:** Course titles for the following have been corrected on the Respiratory Therapy Associate of Science degree program page, as set forth below. (Catalog p. 124, rev. 01.19.22)

<b>Course ID</b>	<b>Course Name</b>	<b>Credit Units</b>
RCP 170	Neonatal and Pediatric Respiratory Care	7.0
RCP 180	Specialized Respiratory Care	5.0
RCP 190	Advanced Respiratory Care	7.0

## SECTION 8: COURSE DESCRIPTIONS

**REVISION:** The following course descriptions have been revised for the Construction Management Associate of Science degree program. (Catalog p. 178, rev. 01.19.22)

### **CON 100: Construction Materials**

#### **3.0 units – 45 hours**

This course provides an overview and study of the principal construction materials used within the construction industry: concrete, masonry, metals, woods, and thermal materials. The course also examines the general requirements of a construction project and the techniques of project mobilization. The course includes focus on the CSI Master Format.

### **CON 115: Applied Mathematics for Construction Management**

#### **3.0 units – 45 hours**

This course provides practical application of topics in algebra which offer students the opportunity to relate and apply mathematical concepts to real-world situations.

### **CON 142: Construction Management Supervision**

#### **3.0 units – 45 hours**

All methods of field supervision in construction will be identified in this course. Topics will include administrative procedures, quality control, scheduling, and bidding. Students will investigate and discuss basic principles of business management, how to be an effective manager, and the best practices of supervision and motivation. Students will also discuss OSHA safety and health principles, and how to lead teams to successful outcomes.

**ADDITION:** The following course descriptions have been added for the Construction Management Associate of Science degree program. (Catalog p. 178, rev. 01.19.22)

**CON 107: Construction Blueprints**

**3.0 units – 45 hours**

This course is an introduction to architecture-related design and working document evolution, including the design process, the establishment of architectural criteria, blueprint reading, technical specifications, and the development of drawings and designs. In addition, students will enhance the critical communication skills needed to interact with design professionals.

**CON 117: Construction Documents and Methods**

**3.0 units – 45 hours**

This course provides an overview of team member roles and responsibilities throughout the progress of a construction project. The purpose and intent of construction documents used in the construction process are introduced to effectively manage a project. This course also examines the procedures and methods used to systematically plan, organize, manage, control, and document jobsite activities.

**CON 127: Project Scheduling and Control**

**5.0 units – 75 hours**

This course is the study and application of Critical Path Method which includes planning, scheduling, and control of construction projects together with a foundational approach to construction industry software. The student will discuss the use of logic, time assignment, and computation, analysis, re-evaluation, computer applications, and management responsibilities.

**CON 136: Construction and Labor Laws**

**3.0 units – 45 hours**

This course provides an orientation to the rules and regulations that govern the construction industry. Students will study contract law, state lien laws, tort law, federal and state labor-oriented regulations, and dispute resolution methods. They will discuss the role of organized labor in construction industry practices.

**CON 138: Estimating and Bidding for Residential and Commercial Projects**

**5.0 units – 75 hours**

This course introduces students to residential and commercial cost estimating, including reading and interpretation of blueprints, plans, specifications and other project documents; principles of building costs; estimate and construction cost control; and practice in preparing bids for prospective buyers. Techniques and rationale used analysis in estimating residential, commercial, and heavy construction projects are evaluated. Special focus is given to the formatting and preparation of competent construction cost estimates with an emphasis on the use of computer applications.

**CON 147: Construction Project Management**

**5.0 units – 75 hours**

This course explores the construction manager's relationship and communication with internal and external project participants. In addition, the student will examine the administrative and project management responsibilities required to meet the performance objectives of the project.

**REVISION: Effective with the April 4, 2022 start date**, course descriptions for the following will be removed. (Catalog p. 178, rev. 01.19.22)

**CON 105:** Design Theory

**CON 106:** Blueprint and Plan Reading

**CON 111:** Materials and Architectural Design

**CON 112:** Construction Documents and Methods

**CON 113:** Construction and Labor Laws

**CON 114:** Computer Applications and Strategic Communications

**CON 116:** Construction Business, Accounting and Financial Management

**CON 120:** Construction Methods

**CON 125:** Scheduling and Control

**CON 126:** Project Scheduling and Strategic Communication

**CON 135:** Estimating & Bidding for Residential & Commercial Projects

**CON 137:** Quality Survey, Estimating & Bidding for Construction

**CON 141:** Construction Management Supervision

**CON 146:** Construction Project Management and Contract Documents

**CON 155:** Competitive Business Presentations and Strategic Communications

**REVISION:** The course descriptions below have been revised to include the Pass/Fail specification. (Catalog p. 177-178, rev. 3.2.22)

**COMP 105: Certification Review – A+**

**2.0 units – 45 hours**

**Prerequisites: COMP 106, COMP 107**

This course uses various methods and strategies to prepare students to take industry certification exams related to completed Information Technology courses. **The grade earned in this course is Pass/Fail.**

**COMP 224: Certification Review – Network+**

**1.0 unit – 30 hours**

**Prerequisites: COMP 106, COMP 107, COMP 124**

This course uses various methods and strategies to prepare students to take industry certification exams related to completed Information Technology courses. **The grade earned in this course is Pass/Fail.**

**COMP 254: Certification Review – Security+**

**1.0 unit – 30 hours**

**Prerequisites: COMP 106, COMP 107, COMP 154**

This course uses various methods and strategies to prepare students to take industry certification exams related to completed Information Technology courses. **The grade earned in this course is Pass/Fail.**

**REVISION:** Titles of the following course descriptions have been corrected. (Catalog p. 195-196, rev. 01.19.22)

**RCP 170: Neonatal and Pediatric Respiratory Care**

**7.0 units – 150 hours**

The focus of this course is special applications in respiratory care, and neonatal and pediatric respiratory care. Topics include neonatal and pediatric anatomy, physiology, and pathology. Specialized diagnostics and certifications also occur during this course. **A grade of "C" or higher is required to pass this course.**

**RT 180: Specialized Respiratory Care**

**5.0 units – 90 hours**

The focus of this course is advanced pulmonary function testing and critical care with emphasis on hemodynamic monitoring. Topics include advanced physical, radiological, and clinical laboratory assessment along with invasively monitored cardiac assessment and special procedures. Routine and specialized pulmonary function tests are also covered. **A grade of "C" or higher is required to pass this course.**

**RCP 190: Advanced Respiratory Care**

**7.0 units – 150 hours**

The focus of this course is alternate work sites and job readiness for successful employment in Respiratory Care. Topics include land/air patient transport, disaster management, patient and family education and health management, case management, home care, long term care, pulmonary rehabilitation, and sleep studies. Job readiness along with licensure and credentialing examination preparation also occurs in this course. **A grade of "C" or higher is required to pass this course.**

## **SECTION 9: ADMINISTRATION AND FACULTY**

### **BOARD OF GOVERNORS**

**REVISION:** The Board of Governors Non-Affiliate Members section has been revised to reflect the addition of Mr. Jorge Perez; Dr. John Swiger has completed his service to the Board.

On behalf of SJVC, sincere thanks and gratitude to Dr. Swiger for his years of exemplary service to the College and the Board of Governors. (Catalog p. 207; rev. 2.16.22)

**Jorge Perez**

Mr. Perez was born and raised in Monterrey, Nuevo León, Mexico. He earned a bachelor's degree in Mechanical Engineering from the Universidad Autónoma de Nuevo León. Mr. Perez went on to earn a master's degree in Business Administration from the Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM). He has over twenty years of experience in the food and telecom industries and is currently employed as the Vice President of Sales and Marketing for Oilseeds International Ltd., which serves both domestic and international food manufacturing companies. Mr. Perez is passionate about growth, value-driven approaches to customer relations, increasing market differentiation, and operational efficiencies.
