INTRODUCTION

San Joaquin Valley College has made a commitment to maintaining the security of students, employees and property. This commitment includes policies and procedures regarding access to campus facilities, crime prevention education, and an awareness of personal responsibility, reporting of crime on campus and supportive services provided to victims of crime on campus. It is our belief that this commitment contributes to the awareness of students and employees of the need to support and encourage sound, basic security practices at all times.

RESPONSIBLE PARTIES

Much of the college's commitment to campus safety is guided by the contents of the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. Responsibility for assuring our compliance with standards in the Act rests with:

CAMPUS SECURITY REPORT

On an annual basis a Campus Security Report is published and posted online at [2016 Campus Security Report](#) and all current students and employees are notified of its availability via e-mail.

This report includes statistical data on the incidence of crime over the past three years. This data is collected, and reported to the Department of Education by:

Sherry Webb, Assistant to the Vice President of Administration
San Joaquin Valley College
Central Administrative Office
3828 W. Caldwell Avenue
Visalia, California 93277
Sherry.Webb@sjvc.edu 559.734.9000

Prospective employees and students are informed in writing that the report is available at www.sjvc.edu/security and is provided to them if requested.

CRIME STATISTICS

The crime statistics included in the Campus Security Report are based on incident reports prepared by Campus Safety Officers and data collected from the local law enforcement agencies in whose jurisdiction campuses are located, if made available. These statistics include crimes committed on campus, or on the public property that is immediately adjacent to, and accessible from, the campus. By definition, SJVC controls two properties outside the reasonably contiguous geographic area of the campus which are used to deliver education and may also be frequented by sanctioned student organizations. As such, should any offense occur at these properties, that statistic(s) would also be reported.

These statistics include those reported to a Campus Safety Officer, employee, city police, or county sheriff's department.

Access to campus facilities is generally limited to students, employees and approved guests during regularly scheduled business hours and class times. Access to off-site clinical and extern facilities is limited to employees of the College and student(s) assigned to those locations. SJVC does not maintain dormitories or residential facilities.

Employees should verify that the front office is notified of all anticipated visitors. Visitors should be instructed to report to the front office where they will sign in and obtain a pass or temporary name badge.

Students must have prior approval for visitors on campus. As a general rule, all visitors must be over the age of eighteen. It is the responsibility of the instructor to notify the front office of the anticipated visitor; it is the student's responsibility to assure that the visitor complies with the established protocol.

Name badges are provided to employees and students for security purposes and must be worn at all times when on campus or off-site extern and clinical facilities.

A number of physical security measures are employed throughout the campus. Probably the most common security devices are locks and keys. Most offices, storage areas and doors are outfitted with locks which, when used, will adequately secure an area and therefore prevent most crime.

The primary responsibility for security of an office or classroom lies with the College employee. The responsible person should secure areas that are not open for business or academic instruction. Keys that are lost or stolen should be reported immediately to the Campus Director.

Security alarm systems are installed in all buildings and are activated at the close of business or instruction each day. Alarm codes are given to only those employees with a legitimate business need to know and are changed as needed to assure compliance with this standard.

As a general rule, campus facilities are open to employees, students, vendors, and guests from 7:00 AM to 10:00 PM, Monday through Thursday and 7:00 AM to 5:00 PM Friday. Should a sanctioned activity be scheduled outside these timeframes, designees are assigned responsibility for opening and securing the facilities. As a general rule, the campus is closed on recognized holidays and access is limited to those with a legitimate business purpose.

CAMPUS SAFETY OFFICERS

The College contracts with an outside agency who provide safety officers to observe and report illegal activity and participate in activities related to security, safety and prevention of crime. These safety officers have current registration cards issued by the Bureau of Security and Investigative Services. Safety officers are unarmed and do not have the power to arrest. They maintain open communication with local law enforcement who will be called for illegal activity and/or crimes. These officers are held to the same standards and expectations as those who are College employees.

It is College policy that these safety officers may ask students, employees or visitors on campus to present identification and/or to leave the facility, and the officer has the authority to escort the person off College property.

Should that person fail to cooperate, the safety officer has the authority to contact the law enforcement agency with jurisdiction at that campus.

Safety officers and employees will not use physical force unless required to defend themselves; in those events only physical force appropriate for that instance will be used.

EDUCATION PROGRAMS

Each campus has an active Safety Committee, whose responsibilities include scheduling training for students and employees in safety awareness and crime prevention. Students and employees receive their first training as a component in orientation.

These trainings encourage students and employees to be responsible for their own security and the security of others as well as addressing issues related to crime prevention. Where appropriate, issues related to shop, lab and classroom safety

are addressed - including routine quarterly fire drills and review of Material Safety Data Sheets (MSDS).

REPORTING CRIMES

Students and employees of **San Joaquin Valley College** are free to report any crime on campus directly to the appropriate law enforcement agency without notifying College staff. However, we ask that students and employees not engage in this practice because the College is prepared to offer immediate support to the victim, coordination with law enforcement, and timely warning to members of the campus community.

In the event that a student or employee is aware of an emergency, is the victim of or witness to a crime, it should be reported **immediately** to:

- the Campus Safety Officer; if the officer is not immediately available, notify the front office staff who can make contact via radio, or
- the Campus Director [please refer to page 2 for contact information].

This report can be made by the employee or student himself/herself or by any employee or student on his/her behalf. This report can be verbal, electronic, or written provided it is done immediately. In the absence of the Campus Director, the report should be made to any member of campus management.

The Campus Director will involve the Campus Safety Officer as appropriate and report in a timely manner to the law enforcement agency with jurisdiction at that campus.

Once reported to the Campus Safety Officer, he/she immediately completes an electronic incident report and provides notice to the Campus Director

If you are the victim of a crime and do not want to pursue action with the criminal justice system, you may make a confidential report. This reporting allows you to keep the matter confidential, while allowing the College to take the steps necessary to ensure the future safety of yourself and others.

Campus security is a serious matter and requires the cooperation and honesty of all students and employees. The filing of a false report, refusal to cooperate with either campus staff or law enforcement in the process of an investigation or being untruthful in the process of an investigation are all grounds for disciplinary action, up to and including termination.

INVESTIGATIONS

In the event that a student or employee is accused or suspected of committing a crime on campus, in an extern/clinical facility, or while participating in a College-sponsored activity, the College will cooperate in full with the appropriate law enforcement agency. It may be necessary to suspend the employee or student during the course of an investigation. The College will impose the appropriate sanction, up to and including termination, if the accused is found guilty.

SUPPORTIVE SERVICES

The College is committed to providing appropriate support to employees and students who are the victims of crime on campus, including no-cost, confidential

counseling through our Employee Assistance Program, referral to appropriate agencies in the community, and leave of absence. The Campus Director will coordinate these services.

The College does not employ pastoral counselors, professional therapists, or psychological counselors; however, referral to these support services can be arranged in a confidential meeting with the Campus Director or Dean of Student Services.

SUBSTANCE ABUSE EDUCATION

San Joaquin Valley College maintains policies and standards regarding substance abuse as a way to prevent, identify and respond to their impact on the work place and academic environment; to provide support for employees and students who seek it; to reduce absenteeism and tardiness; to improve productivity; and to reduce the occurrence of injury and accident.

The unlawful possession, use, distribution or sale of alcohol, prescription, non-prescription or illegal drugs by employees and/or students is strictly prohibited while on College property, off-site extern or clinical facility or while participating in a College-sponsored activity. The College will enforce and refer to the appropriate law enforcement all infractions of this standard, as well as disciplinary action up to and including termination.

The College provides as a benefit for all employees, assistance information on a confidential, no-cost appointment with a counselor go to: InfoZone>Community>Benefits.

The College may arrange a mandatory evaluation of employee fitness for duty; in addition, the College will provide a medical leave of absence, in accordance with existing personnel policies, for employees whose treatment requires extended absence from work.

The *Substance Abuse Prevention Program* is provided to all students at time of enrollment and a community services directory is available through the Dean of Students for referral to the appropriate service organization and support program.

SEXUAL ASSAULT PREVENTION

The College recognizes that students and employees have the right to determine their own personal associations and the level of intimacy in each. However, it is also the College's objective that friendships and intimacy be completely voluntary and free from physical, sexual or mental coercion. In order to support this objective, the College has these policies regarding sex offenses directed against students and/or employees:

1. The offenses of criminal sexual assault, aggravated criminal sexual assault, criminal sexual abuse and aggravated sexual abuse constitute sex offenses under the law.
2. A student or employee who, while on campus or off-site extern or clinical facility, is a sex offense victim is encouraged to immediately contact the Campus Director and/or the local law enforcement agency. If the victim requests

assistance from College staff in reporting the offense to law enforcement agencies, reasonable support will be given.

3. It is imperative that physical evidence be preserved. For that reason, victims of sexual offenses are asked not to wash, change clothes or otherwise clean themselves until medical personnel can examine them.
4. Although the campus does not have on-campus victim services, referral to off-campus sex offender victim services is facilitated through the Dean of Student Services or campus Administrative Assistant.
5. Accusations of sex offenses reported to the College which, after investigation determine that the conduct has occurred, may result in academic or employment disciplinary action being taken against the offender. Sanctions include suspension, termination and/ or criminal prosecution.
6. During disciplinary hearings, both the accuser and the accused are entitled to the same opportunities to have others present during the proceeding, including the opportunity to be accompanied to any related meeting or proceeding by an advisor of their choice.
7. Both the accuser and accused will be notified simultaneously and in writing of: the outcome of the proceeding; appeal procedures; any change to the result before it becomes final; and when the result becomes final.
8. A victims' confidentiality will be protected, including record-keeping that excludes personally-identifiable information on victims.
9. Victims of sex offenses will be provided counseling services through the College's Employee Assistance Program or referral to the appropriate community health organization. Employees may be offered a leave of absence in accordance with existing College policy.
10. The College may change the victim student's schedule of courses depending on the nature and seriousness of the sex offense. These decisions will be based on the circumstances of the incident, the needs of the victim and the availability of resources to support the requested change.

In an effort to inform and educate the College community, programs will be offered that address the issues of rape awareness, acquaintance rape, domestic violence, dating violence, sexual assault, and stalking. These programs will be directed toward prevention through awareness, and are first presented during employee/student orientations and at least annually thereafter.

SEX OFFENDER REGISTRATION

In the State of California, convicted sex offenders must register with the Sex Offender Tracking Program maintained by the California Department of Justice and is provided for the purposes including the protection of the general public.

The California Department of Justice is responsible for maintaining this registry, located at <http://www.meganslaw.ca.gov>.

EMERGENCY NOTIFICATION

It is the intent of SJVC to protect students, visitors and employees from serious injury, property loss or loss of life. If a significant emergency or dangerous situation involving an immediate threat to the health and safety of students and employees occurs on campus, SJVC will utilize its Emergency Notification System to send a SMS text message and email to staff and students. Persons responsible for planning, implementing and communicating urgent notifications are the Campus Director and Emergency Response Team (ERT). The responsibilities of the ERT include assessing the nature and extent of emergency, coordinating appropriate response, facilitating emergency evacuation or lockdown and administering first aid and CPR as a first responder.

Some examples of significant emergencies include fire, hazardous material spill or release, disruptive or combative person, riot or civil disturbance, earthquake and bomb threat. Widespread emergencies have the potential to prevent students and employees from reaching the campus and may necessitate its closure.

During a widespread emergency, the Campus Director may decide to close the campus, keep the campus open under special conditions, or keep the campus open as usual. The Campus Director's decision and any related information will be communicated to the campus community as follows:

Campus personnel will record a status message that can be heard on the main campus phone number. The message will be updated as necessary.

- Campus administration will make every reasonable effort to post status signs on the campus.
- Employees and students unable to reach the campus due to safety concerns should communicate their status by leaving a voice message, if possible, with the campus administration.

In addition, methods of immediate internal communication include automated alarm for the fire detection and suppression system, verbal alert by ERT member, and/or telephone/intercom/radio systems. External methods of notification include police or fire-rescue, civil defense system and commercial radio or television.

Employee and students are to report emergencies to the Campus Director, Deans, Safety Officer or front desk to initiate the process of the Emergency Response Team.

Maps are posted in numerous locations throughout the facilities. Employees and students should be aware of how they will evacuate the facilities, no matter where they are located. Basic instructions include evacuating quickly and orderly, without running, to the nearest exit at the sound of the fire alarm, proceeding to the gathering area and waiting for instructions, remaining in the gathering area until given permission to leave or return to the facility. Talking and cell phone use is prohibited and elevator use is prohibited. More detailed instructions are located on InfoZone in the Campus Safety Procedures and Emergency Action Plan Handbook.

Evacuation drills are conducted quarterly and assessed by the ERT for efficiency and meeting the needs of the campus community.

TIMELY WARNING

The College takes seriously its responsibility to notify students and employees in a timely manner when any of the following have been reported to campus security or local police agencies:

- Murder, non-negligent manslaughter, negligent manslaughter
- Forcible and non-forcible sex offenses
- Robbery
- Aggravated assault
- Burglary
- Motor vehicle theft
- Crimes of murder, forcible rape and aggravated assault that show evidence of prejudice based on race, religion, sexual orientation, ethnicity or disability

This timely warning information is provided in an appropriate manner in order to prevent similar crimes from occurring and to protect the personal safety of students and employees.

Anyone with information warranting a timely warning should report by phone or in person the circumstances to the Campus Director, who is responsible for issuing these warnings. [Please refer to contact information on page 2].

On a semi-annual basis, each Campus Director contacts the local police department and speaks with the commander in whose area the campus is located. The purpose of the conversation is to assure that the commander is:

- aware of our commitment to campus safety,
- is willing to comply with our request for notice of crimes committed on public property adjacent to the campus,
- is aware that crimes committed on public property adjacent to the campus will be included in our crime statistics, and
- will provide immediate notice should there be a need for timely warning to the campus community.

These agreements are memorialized in letters from the Campus Director to the area commander.

In the event that a situation arises, either on or off campus, that, in the judgment of the Campus Director, constitutes an ongoing or continuing threat, a campus wide "timely warning" will be issued. Information is released through security alerts posted prominently throughout each campus, through computer memos sent over the college's electronic mail system, a voice mail broadcasting, and/or through the use of an SMS text messaging system.

SJVC has developed a web based emergency notification system that will send urgent notifications to staff and students via SMS text message and email. Authorized users may enter a message, choose the campus location, and choose the recipient group from either, Staff, Students, or both on a simple web

page. This message is then sent via text message and email. Employees and students may opt in or out of the emergency text messaging system.

Warnings will be issued through the college e-mail system or via the college's emergency notification system to students, faculty, and staff. Depending on the particular circumstances of the crime, especially in all situations that could pose an immediate threat to the community and individuals, the Campus Director may also post a notice on the campus-wide electronic bulletin board at <https://infozone.sjvc.edu>. In such instances, a copy of the notice is also posted in each classroom, at the front door of each campus, and in the Student Center.

CRIME STATISTICS

Campus crime, arrest and referral statistics include those reported to any Campus Safety Officer, designated campus officials, and local law enforcement agencies. As noted earlier, incidents reported in confidence are included in these statistics.

All incidents are reported by Campus Safety Officers and uploaded to an electronic log, viewed and maintained on a daily basis by the Campus Director. Public access to incidents reported within the last sixty days may be obtained by contacting the Campus Director [please refer to page 2 for contact information]. Student and employees may access the log at <http://www.sjvc.edu/campus-security-report/>. Each incident reported includes the nature, date, time, location, and disposition of the crime.
