SAN JOAQUIN VALLEY COLLEGE

SUPPLEMENT TO THE 2026-2027 COLLEGE CATALOG

(rev. 11.11.26)

This document is a supplement to the 2026-2027 College Catalog and is provided for the purpose of notifying students and other interested parties of corrections and/or updates to College policy, programs, courses, admissions and graduation requirements which have occurred since the Catalog's publication. This is a living document; revisions will be added until publication of the next Catalog.

SECTION 1: INTRODUCTION TO SAN JOAQUIN VALLEY COLLEGE

INSITUTIONAL ACCREDITATION

REVISION: Information about the institutional reaffirmation of accreditation has been added. (Catalog, page 10; rev. 8.21.26)

San Joaquin Valley College is accredited by the WASC Senior College and University Commission (WSCUC), 1080 Marina Village Parkway, Suite 500, Alameda, CA, 94501, (510) 748-9001. The College received reaffirmation of accreditation at the June 2026 WSCUC Commission meeting, and its next Accreditation Visit is now scheduled for spring 2034.

WSCUC.org

The WSCUC is an institutional accrediting body recognized by the Council for Higher Education Accreditation and the U.S. Department of Education.

STATE DISCLOSURES

REVISION: Information has been added for the State of Louisiana Board of Regents. (Catalog, page 13-14; rev. 8.21.26)

Louisiana

San Joaquin Valley College is currently licensed by the Board of Regents of the State of Louisiana. Licenses are renewed by the State Board of Regents every two years. Licensed institutions have met minimal operational standards set forth by the state, but licensure does not constitute accreditation, guarantee the transferability of credit, nor signify that programs are certifiable by any professional agency or organization.

SJVC LOCATIONS, HOURS OF OPERATION, AND PROGRAMS (page 15)

***SJVC offers an online Associate of Science in Trades Studies for graduates of this certificate program.**

Antelope Valley (Lancaster) Campus

42135 10th Street West, Ste. 200, Lancaster, CA 93534 **Phone:** (661) 466-5204

Monday-Thursday: 7:00am-10:00pm **Friday:** 8:00am-5:00pm

The Antelope Valley (Lancaster) campus, established in October 2012, serves students and employers throughout the Lancaster-Palmdale region. The campus occupies nearly 10,000 square feet and is designed to support hands-on training and meaningful interaction between students and instructors. Campus amenities include wireless internet access, an HVAC training building, a learning resource center, a student lounge, and administrative offices that provide a variety of student support services, including career services.

The campus features classrooms and laboratory training areas equipped with instructional tools, equipment, and materials that support hands-on learning. Students in the HVAC-R program have access to dedicated HVAC training laboratories containing heating systems, cooling equipment, refrigeration systems, electrical troubleshooting stations, diagnostic equipment, and related instructional materials used in classroom and laboratory instruction. These facilities and resources support the development of technical knowledge and practical skills applicable to entry-level employment in the field.

The following programs are offered at this campus:

Certificate of Completion

Heating, Ventilation, Air Conditioning, and Refrigeration*

Bakersfield Campus

201 New Stine Road, Bakersfield, CA 93309 **Phone:** (661) 215-6605

Monday-Thursday: 7:00am-10:00pm **Friday:** 8:00am-5:00pm

The Bakersfield campus, established in 1982, serves students and employers throughout the southern San Joaquin Valley, including communities between Visalia and Santa Clarita. The campus encompasses more than 30,000 square feet dedicated to student learning and support. The main entrance opens into a reception area and administrative offices that provide a variety of student services, including enrollment, academic support, and career services. The campus also features lecture classrooms, computer laboratories, a learning resource center, student break areas, and a private lounge for faculty and staff.

The campus includes dedicated HVAC-R and Electrical Technology laboratory training areas designed to support both classroom instruction and hands-on learning experiences. These laboratories contain industry-current tools, equipment, and instructional materials used to develop practical skills in residential, commercial, and industrial applications. The training labs provide opportunities for students to apply technical concepts and develop knowledge and skills associated with their chosen field.

The following programs are offered at this campus:

Certificate of Completion
Electrical Technology*
Heating, Ventilation, Air Conditioning, and Refrigeration*

Fresno Trades Education Center (TEC)

4985 East Andersen Avenue Fresno, CA 93727 **Phone:** (559) 206-1028

2665 N. Air Fresno Drive, Suites 101, 103, 106, 107, Fresno, CA 93727

Monday-Thursday: 7:00am-10:30pm **Friday:** 8:00am-5:00pm

The Fresno Trades Education Center, originally established as the Fresno Aviation Campus in 1991 and reestablished in 2019, serves students and employers throughout Fresno and the surrounding communities between Madera and Visalia. The campus provides more than 18,000 square feet of space dedicated to classroom instruction and hands-on training. Located near Fresno Yosemite International Airport and surrounding industrial areas, the campus offers students access to valuable externship opportunities and serves students from Fresno and neighboring communities throughout California's Central Valley.

The campus features classrooms and laboratory training areas that support instruction in Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC-R), Electrical Technology, Construction Management, and Aviation Maintenance Technology. Students learn in hands-on, lab-focused training environments designed to develop technical knowledge and practical skills associated with their chosen field. Instructional resources support training in areas such as aircraft inspection, maintenance, troubleshooting, and repair; electrical systems and equipment; HVAC-R principles and applications; and construction planning and project management. These facilities and instructional resources support both classroom instruction and practical learning experiences.

This campus offers the following programs:

Associate of Science Degree
Construction Management

Certificate of Completion
Aviation Maintenance Technology*
Electrical Technology*
Heating, Ventilation, Air Conditioning, and Refrigeration*

Modesto (Salida) Campus

5380 Pirrone Road, Salida, CA 95368
Monday-Thursday: 7:00am-10:30pm

Phone: (209) 272-7794
Friday: 8:00am-5:00pm

The Modesto (Salida) campus was founded in 2004 and serves students and employers in neighboring communities between Merced and Stockton. The campus occupies two floors and provides approximately 24,000 square feet of space for student learning. The main-floor entrance leads to a reception area and administrative offices that provide student support services. This floor also includes classrooms equipped for computer-based instruction and a dedicated skills training area. The second-floor features lecture classrooms, a library learning center, a student break area, and a student center with study tables. Faculty and staff have access to a private lounge.

Instruction is provided in lecture classrooms, computer-based instructional classrooms, and practical skills training areas designed to support hands-on learning. The campus offers training in Electrical Technology and Maintenance Technician programs. Instructional resources include electrical systems and equipment, installation and troubleshooting applications, equipment maintenance activities, workplace safety training materials, and related instructional resources used in classroom and practical training settings. These facilities, equipment, and instructional materials support the development of technical knowledge and skills applicable to electrical, industrial, and facility environments.

The following programs are offered at this campus:

Certificate of Completion
Electrical Technology*
Maintenance Technician*

Online Division

Phone: (866) 544-7898
Admissions: Monday-Thursday: 8:00am-7:00pm
Career Services: Monday-Friday: 8:00am-5:00pm

SJVC.edu/ online-programs
Friday: 8:00am-5:00pm

The Online Division was founded in 2001 with the goal of providing training to students outside of the geographic areas served by the on-ground campuses. The following programs are offered through the Online Division:

Bachelor of Science Degree
Construction Management
Organizational Leadership

Associate of Science Degree
Business Office Administration
Construction Management
Human Resources Administration
Information Technology
Trades Studies

Certificate of Completion
Business Office Administration
Human Resources Administration
Information Technology

For information regarding states and territories currently accepting online enrollments, please visit SJVC.edu/program/online-programs to *connect with an online Enrollment Services Associate.*

Ontario Campus

4580 Ontario Mills Parkway, Ontario, CA 91764
Phone: (909) 504-1944

Monday-Thursday: 7:00am-10:30pm **Friday:** 8:00am-5:00pm

The Ontario campus, formerly the Rancho Cucamonga campus, was founded in 2001. With approximately 38,000 square feet, the campus is located in the heart of the Inland Empire and serves students and employers in neighboring communities between San Bernardino and Pomona. The campus features a primary entrance leading to a reception area and administrative offices that provide student support services. Multiple lecture classrooms are strategically located throughout the facility to accommodate classroom instruction and computer-based learning activities. Students also have access to a break area, library and learning resource center, and dedicated lecture space to support their studies.

Instruction is provided in lecture classrooms, computer-based instructional environments, and hands-on training areas that support practical skill development. The campus offers Construction Management, Electrical Technology, HVAC-R, and Maintenance Technician training. Instructional resources include computers and related software applications used in construction planning, estimating, bidding, and project management; electrical systems, wiring systems, control systems, lighting systems, transformers, circuit breakers, testing devices, and related instructional materials used in Electrical Technology training; and equipment systems, heating and cooling principles, electrical theories, troubleshooting applications, installation techniques, servicing procedures, replacement techniques, and related instructional materials used in HVAC-R and Maintenance Technician instruction. These facilities, equipment, and instructional materials are used in both classroom and hands-on training settings to support the development of technical knowledge and practical skills associated with each field of study.

The following programs are offered at this campus:

Associate of Science Degree
Construction Management

Certificate of Completion
Electrical Technology*
Heating, Ventilation, Air Conditioning, and Refrigeration* Maintenance Technician*

Phoenix Campus

8836 N. 23rd Ave., Bldg. B, Phoenix, AZ 85021 **Phone:** (602) 207-8633

Monday-Thursday: 8:00am-10:30pm **Friday:** 8:00am-5:00pm

The Phoenix campus, established in 2025, occupies approximately 19,000 square feet and serves students pursuing careers in skilled trades. The facility provides wireless internet access, five laboratory training areas, two tool rooms, and a student lounge. Students also have access to online resources and professional organization information through the SJVC Library.

Instruction is provided in classrooms, laboratory training areas, and dedicated tool rooms designed to support hands-on learning and practical skill development. The campus offers Electrical Technology and Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC-R) training. Instructional resources for the Electrical Technology program include electrical systems, wiring, control systems, lighting systems, and related tools, testing devices, and instructional materials used to support training in residential, commercial, and industrial applications. Instructional resources for the HVAC-R program include tools, equipment, systems, and instructional materials used to support training in installation, maintenance, and troubleshooting techniques associated with heating, ventilation, air conditioning, and refrigeration. These facilities, equipment, tools, and instructional materials are used in both

classroom and laboratory instruction to support the development of technical knowledge and practical skills associated with each field of study.

The following programs are offered at this campus:

Associate of Science Degree

Electrical Technology

Heating, Ventilation, Air Conditioning, and Refrigeration

Certificate of Completion

Electrical Technology*

Heating, Ventilation, Air Conditioning, and Refrigeration*

Rancho Mirage Campus

34275 Monterey Avenue, Rancho Mirage, CA 92270

Phone: (442) 435-4980

Monday-Thursday: 8:00am-10:30pm

Friday and Saturday: 8:00am-5:00pm

The Rancho Mirage campus occupies approximately 32,000 square feet and is located in the heart of the Coachella Valley in Riverside County. The campus features a primary entrance leading to a reception area, administrative offices, student services offices, and a learning resource center. Multiple lecture classrooms are strategically positioned throughout the facility to support classroom instruction and computer-based learning activities. Students also have access to a break area, while faculty and staff have access to a private lounge.

Instruction is provided in lecture classrooms, technical learning environments, and training laboratories designed to replicate workplace conditions in residential, commercial, and industrial settings. The campus offers Electrical Technology and Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC-R) training. Instructional resources for the Electrical Technology program include electrical equipment and systems, industry practices and techniques, and related instructional materials used to support hands-on learning. Instructional resources for the HVAC-R program include heating, ventilation, air conditioning, and refrigeration systems, heating and cooling principles, electrical theory, mechanical and electrical troubleshooting applications, and related instructional materials used in classroom and laboratory instruction. These facilities, equipment, systems, and instructional materials support the development of technical knowledge and practical skills associated with each field of study.

The following programs are offered at this campus:

Certificate of Completion

Electrical Technology*

Heating, Ventilation, Air Conditioning, and Refrigeration*

Sacramento Campus

8909 Folsom Boulevard, Sacramento, CA 95826

Phone: (916) 313-4262

Monday-Thursday: 7:00am-10:30pm

Friday: 7:00am-5:00pm

The Sacramento campus, established in 2025, serves students and employers throughout Sacramento and neighboring Northern California communities. The campus occupies approximately 52,700 square feet across three buildings on a seven-acre site. Classrooms are equipped with wall-mounted LCD projectors, wireless internet access, and student computing resources. The Student Center provides reference materials, textbooks, computers, tutoring services, and learning support resources, while the library offers online access to academic resources and professional organizations.

Additional campus facilities include laboratory training areas, lecture classrooms, student lounges,

administrative offices, and dedicated student service areas that support enrollment, registrar, financial, and career services. Faculty and staff are supported by office space and lounge facilities throughout the campus.

The campus features classrooms and laboratory training areas designed to support hands-on learning and practical skill development. Instructional resources support Electrical Technology, Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC-R), and Construction Management programs. Resources include laboratory training spaces, tools, equipment, electrical systems, HVAC-R systems, computers, and related instructional materials used in classroom and practical training settings. These facilities and instructional resources support the development of technical knowledge and practical skills associated with each field of study.

The following programs are offered at this campus:

Associate of Science Degree

Construction Management
Electrical Technology

Certificate of Completion

Electrical Technology*
Heating, Ventilation, Air Conditioning, and Refrigeration*

San Leandro Campus

15555 E. 14th St., Ste. 500, San Leandro, CA 94578

Phone: (510) 916-2459

Monday-Thursday: 7:00am-10:30pm

Friday: 8:00am-5:00pm

The San Leandro campus, established in 2025, serves students and employers throughout multiple Bay Area communities in Northern California. The approximately 39,000-square-foot facility offers both certificate and degree programs and features classrooms, laboratory training areas, and student support facilities. Classrooms are equipped with Apple TV®, ceiling-mounted LCD projectors, wireless internet access, and student computing resources. The Student Success Center provides reference materials, textbooks, journals, and computers to support student learning.

Additional campus facilities include a student testing center, staff lounge, copy and distribution center, conference room, and administrative and faculty offices. Student services available on campus include enrollment, financial, registrar, and career services.

The campus features classrooms and laboratory training areas designed to support hands-on learning and practical skill development. The Electrical Technology program provides instruction in electrical concepts, installation, maintenance, safety, testing, and troubleshooting through classroom and laboratory activities. Students have access to laboratories, computers, reference materials, textbooks, journals, and online library resources that support instruction and skill development. These facilities and instructional resources support the development of technical knowledge and practical skills associated with the Electrical Technology field.

The following programs are offered at this campus:

Associate of Science Degree

Electrical Technology

Certificate of Completion

Electrical Technology*

Temecula Campus

27270 Madison Avenue, Ste. 103, Temecula, CA 92590

Phone: (951) 501-2048

Monday-Thursday: 8:00am-10:00pm

Friday: 8:00am-5:00pm

The Temecula campus, established in July 2011, serves students and employers throughout the southwestern Inland Empire, including Temecula, Lake Elsinore, Wildomar, Canyon Lake, and Sun City. The campus occupies nearly 30,000 square feet and features a reception area, administrative offices, and student service areas that support enrollment, academic, financial, and career services. Lecture classrooms throughout the facility accommodate classroom instruction, computer-based learning activities, and large group instruction.

The campus features classrooms and electrical and HVAC-R labs designed to support hands-on learning and practical skill development. The campus offers Electrical Technology and Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC-R) programs. Instruction is provided through classroom and lab-based training activities that support learning in installation, troubleshooting, maintenance, and safety practices. These facilities support the development of practical skills associated with each field of study.

The following programs are offered at this campus:

Certificate of Completion

Electrical Technology*
Heating, Ventilation, Air Conditioning, and Refrigeration*

Victor Valley (Hesperia) Campus

9331 Mariposa Road, Hesperia, CA 92344

Phone: (760) 523-9745

Monday-Thursday: 7:00am-10:30pm

Friday: 8:00am-5:00pm

The Victor Valley (Hesperia) campus, established in 2009, is located in the High Desert region and serves students and employers in Hesperia, Adelanto, Victorville, Apple Valley, and surrounding communities. The approximately 15,000-square-foot campus is housed in a two-story facility. The main floor includes a reception area, administrative offices, student services offices, and a library and learning resource center. The second-floor features lecture classrooms, computer-based learning resources, additional administrative offices, and a student lounge.

The campus features classrooms and instructional spaces designed to support hands-on learning and practical skill development. The campus offers Electrical Technology and Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC-R) programs. Instruction is provided through hands-on classes, simulation labs, and lab-based training activities that support learning in electrical equipment and systems, heating and cooling principles, electrical theories, installation methods, maintenance procedures, troubleshooting, and safety practices. These facilities support the development of practical skills associated with each field of study.

The following programs are offered at this campus:

Certificate of Completion

Electrical Technology*
Heating, Ventilation, Air Conditioning, and Refrigeration*

Visalia Campus

8344 West Mineral King, Visalia, CA 93291

Phone: (559) 364-9718

Monday-Thursday: 7:00am-10:30pm

Friday: 8:00am-5:00pm

The Visalia campus, established in 1977, serves students and employers throughout neighboring communities between Fresno and Bakersfield. The campus occupies nearly 45,000 square feet and features a reception area, administrative offices, student services offices, and a Library and Learning Resource Center that provides access to academic resources and study space. Lecture classrooms throughout the facility support classroom

instruction, computer-based learning activities, and large group instruction, while dedicated laboratory training areas support hands-on learning. Students have access to a break area, and faculty and staff have access to a private lounge.

The campus features classrooms and hands-on labs that support student learning in the Electrical Technology, Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC-R), and Maintenance Technician programs. Instruction is provided through classroom instruction and hands-on lab experience. Depending on the program, students develop skills in electrical labs, on industry-current HVAC training equipment, industrial maintenance equipment, diagnostic tools, and troubleshooting stations.

The following programs are offered at this campus:

Certificate of Completion

Electrical Technology*

Heating, Ventilation, Air Conditioning, and Refrigeration*

Maintenance Technician*

SECTION 2: ADMISSIONS

TUITION

REVISION: For the Bakersfield Campus, removed the Electrical Technology Associate of Science Degree program option (taught out) from the tuition table. For the Sacramento Campus, removed the Construction Management Associate of Science Degree program option from the tuition table. (Catalog, pages 26-27; rev. 8.21.26) Added Total Institutional Charges and Total Estimated Charges for all programs.

Effective as of the date noted. The tuition for each program is listed below, on the College's portal website, InfoZone (available to enrolled students), and at SJVC.edu. Includes tuition, eBooks, physical textbooks as required; total program costs will vary depending on transfer credits accepted, course retake fees, etc. The published cost includes all applicable state and local sales and use taxes. NOTE: Tuition rates are effective for the program start date (the first date on which the student begins attending classes), not the date on which the student enrolls at SJVC. SJVC charges tuition to students the week following the start of the Payment Period or Term when attendance for that period has been posted.

* Students who enroll in this program with a previously earned Associate Degree in Construction Management or a trades-related field will begin in Academic Year 3 (AY3).

TRAINING COURSES

REVISION: Added under Admissions section a new item for training courses, specifically for non-degree seeking students who wish to take an individual course or courses. This addition now pertains to the Electrical Technology program, the Heating, Ventilation, Air-Conditioning and Refrigeration program, and the Maintenance Technician program, effective with the 8/31/26 module start date. (Catalog, page 28; rev. 8.21.26)

Certificate Program Courses for Non-Degree Seeking Students

A non-degree student takes individual course(s) within a term without pursuing a full certificate or degree program. Should any individual course the student is seeking to enroll in require a pre-requisite course to be completed, the student must complete the pre-requisite course and submit the official transcript showing the successful completion of the course prior to enrollment.

Enrollment in a course(s) is independent of any San Joaquin Valley College program enrollment and will be treated separately. The cost of the course(s) is not eligible for financial aid. Payment is the sole responsibility of the student, and payments must be made as agreed upon in the student's Student Enrollment Agreement.

Completion of course(s) as a non-degree student at San Joaquin Valley College does not guarantee entry into any of the programs. If you intend to transfer San Joaquin Valley College courses to another institution, you must contact the institution directly to determine the transferability of units. Accepting transfer credits is always and only up to the receiving institution.

Please refer to the Start Dates section for the available term dates. Not all courses are available each term. Please contact an Enrollment Services Associate at the desired campus for course availability.

Certificate Program Course	Length of Course and Location	Cost per Term
Electrical Technology	5 Credit Course (All California Locations)	$3,473
Electrical Technology	5 Credit Course (Phoenix Locations)	$2,999
Electrical Technology	10 Credit Course (All California Locations)	$6,947
Electrical Technology	10 Credit Course (Phoenix Locations)	$5,997
HVAC – R	5 Credit Course (All California Locations)	$3,456
HVAC – R	5 Credit Course (Phoenix Locations)	$2,998
HVAC – R	10 Credit Course (All California Locations)	$6,912
HVAC – R	10 Credit Course (Phoenix Locations)	$5,996
Maintenance Technology	5 Credit Course (All California Locations)	$3,456
Maintenance Technology	10 Credit Course (All California Locations)	$6,913

SECTION 3: FINANCIAL SERVICES

FINANCIAL AID ASSISTANCE (page 32)

SJVC participates in federal financial aid programs, veterans' educational assistance programs, Workforce Innovation and Opportunity Act (WIOA) funding programs, Vocational Rehabilitation programs, and is listed on California's Eligible Training Provider List (ETPL). Students may contact the Financial Aid Office for information regarding eligibility requirements, application procedures, and available consumer information related to these programs. SJVC does not participate in the CalGrant program.

STUDENT'S RIGHT TO CANCEL (page 34)

New students have the right to cancel the enrollment agreement and obtain a refund of charges paid any time prior to midnight on the seventh calendar day (excluding institutionally recognized holidays) after the start of their first scheduled class session, or for new students enrolled in a distance education program, the seventh calendar day (excluding institutionally recognized holidays) after the start of their first lesson.

Cancellation shall occur when the student gives written notice of cancellation at the address of the College shown on top of the front page of the enrollment agreement. Students can submit this written notice by mail, hand delivery, or email. The written notice of cancellation need not take any particular form and, however expressed, is effective if it shows that the student no longer wishes to be bound by the enrollment agreement.

If the student cancels the enrollment agreement within the cancellation period, the student is entitled to a refund of 100% percent of the amount paid for institutional charges, less a reasonable application fee or deposit, not to exceed two hundred fifty dollars ($250), in accordance with applicable law.

Institutional/California State Refund Calculation section (page 35)

The Institutional/California state refund policy shall provide a pro rata refund of amounts paid for institutional charges for students who have completed 60 percent or less of the period of attendance. The pro rata refund shall be no less than the amount paid for institutional charges, less the amount owed for the portion of the educational program provided and less any non-refundable charges permitted by law. The amount of the refund owed to the student equals the total charges paid by the student, minus the daily tuition charge for the program (total institutional charges minus any non-refundable charges, divided by the number of days in the program), multiplied by the number of days the student attended prior to withdrawal, and minus any non-refundable charges. Any days prior to the student's last date of attendance for which the student was scheduled to attend but was absent shall be included in the calculation of days or hours attended.

All amounts that the student has paid shall be subject to refund unless the enrollment agreement and the refund policy outlined in this catalog specify amounts paid for an application fee or deposit not to exceed $250, books, supplies, or equipment, and specify whether and under what circumstances those amounts are non-refundable. If any portion of those charges was paid from the proceeds of a nonfederal loan, the refund shall be sent to the lender or to the agency that guaranteed the loan. All other monies shall be returned to the student.

If the student receives federal student financial aid funds, the student is entitled to a refund of the moneys not paid from federal student financial aid funds.

SECTION 4: INSTITUTIONAL POLICIES

NOTICE OF NON-DISCRIMINATION AND SEXUAL HARASSMENT/ASSAULT PREVENTION POLICIES

REVISION: The contact information in the **NOTICE OF NON-DISCRIMINATION AND SEXUAL HARASSMENT/ ASSAULT PREVENTION POLICIES** section of the catalog has been updated. (Catalog, page 42; rev. 8.21.26)

NOTICE OF NON-DISCRIMINATION AND SEXUAL HARASSMENT/ASSAULT PREVENTION POLICIES

SJVC does not discriminate on the basis of race, color, religion, national origin, sex, age, disability, veteran status, sexual orientation, political affiliation, or any other protected characteristic in its education programs and activities. Pursuant to Title IX of the Higher Education Amendments of 1972 (Title IX), SJVC's policy against sex discrimination extends to student admissions and employment. SJVC also prohibits retaliation against an individual who reports, submits a complaint, or who otherwise participates in good faith in any matter related to SJVC's anti-discrimination policies. Any inquiries about SJVC's non-discrimination policies or the application of Title IX rules may be addressed to the individual identified below, the U.S. Department of Education's Assistant Secretary of the Office of Civil Rights, or both. **Title IX Coordinator/Person Designated to Handle Inquiries:**

Stephanie Simmons, Deputy Title IX Coordinator
3828 West Caldwell Avenue Visalia, CA 93277
Phone: (559) 500-2658
Email: TitleIX@sjvc.edu

HARASSMENT

REVISION: The contact information in the Public Information section of the catalog has been updated. (Catalog, page 43; rev. 8.21.26)

Public Information

All requests from the media, the campus community at large, or the general public for information concerning an alleged incident of sexual misconduct should be directed to Stephanie Simmons, Director of Administration, at

3828 West Caldwell Avenue, Visalia, CA 93277, TitleIX@sjvc.edu, or (559) 500-2658. Compliance with this policy will promote campus safety and protect the integrity of this policy and the investigation process.

As required by law, SJVC collects and annually reports statistical information concerning sexual misconduct occurring within its jurisdiction. To promote public safety, SJVC also alerts the campus community to incidents and trends of immediate concern.

STUDENT GRIEVANCE POLICY (page 43)

SJVC has established a Student Grievance Policy & Procedure to provide for the prompt, effective, and equitable resolution of student grievances that are not addressed through another College policy or procedure. Students are encouraged to first attempt to resolve concerns informally with the individual(s) most directly involved in the matter.

Under the provisions of the General Student Grievance Policy & Procedure, students have the right to submit grievances, have their grievances considered by campus leadership, and be notified of the College's decision on the grievance. This policy outlines the pathways for resolving conflicts and addressing complaints that may arise during a student's educational experience. The following procedures serve as a method of communication between students and College administration and should be used to address conflicts that are not governed by another College policy or procedure (e.g., academic integrity, grade appeals, or conduct code violations).

Formal Complaint and Grievance Process

When to File a Complaint

The student should file a complaint promptly so the College can address concerns contemporaneously. In most cases, the College expects the student to come forward within 15 calendar days of becoming aware of the concern or their last conversation in the informal process.

How to File a Complaint

Formal complaints must be submitted in writing and should include:

- The Complainant's name, student number (if applicable), address, email address, and phone number
- A complete description of the concern/issue, including date, location, and all individuals involved, including the person against whom the complaint is filed and/or witnesses
- A description of what efforts, if any, have been made to resolve the issue informally, including individuals contacted in the resolution attempt
- A statement of the resolution requested

Where to File a Complaint

The complaint should be filed with the Campus Director/Program Manager at the campus the student attends. The written complaint can be submitted electronically, in person, or by mail.

Investigation Process

The designated administrator will initiate an investigation. The extent and components of the investigation will vary depending on the allegations and circumstances. An investigation may include the following steps, as appropriate:

- Reviewing the Complainant's written complaint
- Gathering additional information or statements from the complainant
- Gathering information from witnesses or other people with potentially relevant information
- Reviewing relevant documentation and policies

- Obtaining a response or written statement from the individual(s) who is/are the subject of the complaint
- Attempting a resolution between the student and the individual, if appropriate
- Assessing the information gathered and determining findings and proposed resolution

Timeframe

The College aims to conduct an appropriate investigation and report back to the Complainant, usually within 21 calendar days of receiving the complaint. The circumstances in particular cases may make a shorter or longer investigation necessary or appropriate.

Findings and Notification
Upon completion of the investigation, the designated administrator will provide the Complainant with written notice of the College's findings any proposed resolution to the Complainant.

Appeal Process
Within 7 calendar days of receiving the investigation findings, the Complainant may appeal to the designated senior administrator (Vice President of Operations, Campus Director, or designee). The appeal must be submitted in writing stating the basis for the appeal. The basis on which a student may appeal is limited to:

- New evidence that was unavailable at the time of the original investigation that would affect the outcome
- Procedural irregularities in the complaint process that affected the outcome

Confidentiality
Confidentiality will be maintained to the extent possible and consistent with the College's obligations in investigating complaints. While the confidentiality of information received, the privacy of individuals involved, and compliance with the Complainant's wishes cannot be guaranteed; they will be respected to the extent possible and appropriate**.**

Questions and Additional Information
Questions concerning this policy may be directed to the Campus Director or Program

Manager. A student or any member of the public within California may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau's internet website http://www.bppe.ca.gov.

Library and Learning Resources section (page 51)

San Joaquin Valley College provides students with access to learning resources designed to support their educational experience. Through the College's student information systems and learning platforms, students have access to course materials, academic information, electronic research resources, educational websites, databases, libraries, museums, and research repositories. Students may also access course schedules, assignments, grades, attendance information, and other academic resources through the College's online systems.

Students may access these resources through the College's online platforms, including infoZONE and eCourses. eCourses provides access to course syllabi, course materials, assignments, examinations, discussions, grades, and supplemental instructional resources. InfoZone provides access to academic information, college publications and handbooks, educational resources, libraries, databases, and research repositories.

These learning resources are available to assist students in completing coursework, accessing instructional materials, and obtaining information relevant to their educational programs.

SECTION 5: STUDENT SERVICES

DESCRIPTION OF STUDENT SERVICES

REVISION: The information regarding housing was updated. (Catalog, page 52; rev. 8.21.26)

Housing

San Joaquin Valley College does not have dormitory facilities under its control, nor does it assist students in securing housing. However, limited guidance may be available through the Program Manager to help students explore local housing options.

According to the California Student Aid Commission's 2026–27 Student Expense Budget, students should budget approximately $3,692 per month for housing, which includes rent and utilities. This figure represents a statewide average and may vary significantly depending on the county, type of housing, and whether the space is shared or private. 2026-27 Student Expense Budget

Housing costs are based on publicly available rental listing information as of July 16, 2026, and are subject to change without notice. According to redfin.com, the approximate cost for a one-bedroom apartment in the vicinity of our campuses ranges from:

Alameda County – San Leandro $765-$4,500 Approx. 1,454 rentals available	Sacramento County – Rancho Cordova & Sacramento $850-$3,375 Approx.1,328 rentals available
Fresno County – Fresno TEC $753-$2,500 Approx. 150 rentals available	San Bernardino County – Ontario & Victor Valley $725-$3,266 Approx. 672 rentals available
Kern County – Bakersfield $675-$2,295 Approx. 1,000 rentals available	Los Angeles County – Lancaster $600-$6,000 Approx. 13,008 rentals available
Riverside County – Rancho Mirage & Temecula $629-$3,010 Approx. 1,000 rentals available	Stanislaus County – Modesto $950-$2,295 Approx. 80 rentals available
Tulare County – Visalia $900-$2,195 Approx. 12 rentals available	

These estimates are intended to help students plan their budgets and do not reflect actual housing offers or guarantees. Students are solely responsible for evaluating and securing their own housing arrangements. San Joaquin Valley College assumes no responsibility for housing-related matters, including leases, safety, or living conditions.

According to Arizona State University, students residing in Metro Phoenix should budget $9,792 per year for housing. These costs vary widely depending on location and whether the space is shared or occupied alone, and whether the student is securing only a room or an entire structure.

Although the College has no responsibility to find or assist a student in finding housing, limited assistance can be provided by the Program Manager.

SECTION 7: BACCALAUREATE DEGREE, ASSOCIATE DEGREE, AND CERTIFICATE PROGRAMS

PROGRAMS OF STUDY LEADING TO A BACCALAUREATE DEGREE

REVISION: Removed references to the Bachelor of Science in Dental Hygiene program, which is now fully taught out given how all Allied Health programs have been aligned with SJVC's sister institution, Carrington College. (Catalog, pages 65, 70-71; rev. 8.21.26)

PROGRAMS OF STUDY LEADING TO AN ASSOCIATE OF SCIENCE DEGREE

REVISION: Removed references to the **Surgical Technology** and **the Vocational Nursing** Associate of Science Degree programs, which are now fully taught out given how all Allied Health programs have been aligned with SJVC's sister institution, Carrington College. (Catalog, pages 113-114, 119-121; rev. 8.21.26)

PROGRAMS OF STUDY LEADING TO A CERTIFICATE OF COMPLETION

REVISION: Removed references to the **Clinical Medical Assisting, Dental Assisting,** and the **Registered Nursing** Certificate of Completion programs, which are now fully taught out given how all Allied Health programs have been aligned with SJVC's sister institution, Carrington College. (Catalog, pages 130-131, 132-133, and 142-144; rev. 8.21.26)

BUSINESS OFFICE ADMINISTRATION

REVISION: An update to the Graduate Employment sections for the **Business Office Administration** Associate of Science Degree program and for the **Business Office Administration** Certificate of Completion program have been made. Two additional SOC codes have been added: Administrative Services Managers, and, Office and Administrative Support Workers, All Other. (Catalog, pages 83-84, and pages 128-129; rev. 8.21.26)

The following job categories are considered in-field to calculate the graduate employment rates required by the state of California for graduates of the Business Office Administration program. Detailed information for each Standard Occupational Classification (SOC) can be found at onetonline.org.

- Administrative Services Managers (11-3012.00)
- Bookkeeping, Accounting, and Auditing Clerks (43-3031.00)
- Customer Service Representatives (43-4051.00)
- Executive Secretaries and Executive Administrative Assistants (43-6011.00)
- First-Line Supervisors of Retail Sales Workers (41-1011.00)
- Food Service Managers (11-9051.00)
- General and Operations Managers (11-1021.00)
- Human Resources Specialists (13-1071.00)
- Office and Administrative Support Workers, All Other (43-9199.00)
- Office Clerks, General (43-9061.00)
- Receptionists and Information Clerks (43-4171.00)
- Sales Representatives, Wholesale and Manufacturing, Except Technical and Scientific Products (41-4012.00)
- Secretaries and Administrative Assistants, except Legal, Medical, and Executive (43-6014.00)

SECTION 9: ADMINISTRATION AND FACULTY

COLLEGE ADMINISTRATION

Senior Leadership

Irene Benero
M.S., Public Relations, University of Houston
B.A., English, University of Dallas

CAMPUS LEADERSHIP AND FACULTY

REVISION: Removed references to the **Fresno (Main) Campus** as well as to the **Santa Maria Campus**, both of which are now fully taught out given how all Allied Health programs have been aligned with SJVC's sister institution, Carrington College. (Catalog, pages 182-183 and 195; rev. 8.21.26)

REVISION: Added reference to campus leadership changes on the **Ontario**, **Rancho Mirage**, **San Leandro**, and **Victor Valley (Hesperia) Campuses**. (Catalog, pages 188, 193, 195, and 197; rev. 8.21.26)

REVISION:

Ontario Campus

Kevin Sawyers
Campus Director
M.A., Education, Louisiana State University
B.S., Organizational Leadership, Azusa Pacific University

Rancho Mirage Campus

Leonard Kimbler
Program Manager
A.S., Construction Management, San Joaquin Valley College

Sacramento Campus

Randall Swanson
Program Manager
M.A., Leadership, Saint Mary's College
B.A., Business Management, Saint Mary's College
A.S., Digital Electronics, American River College

San Leandro Campus

Tony Borash
Campus Director
MBA, Business Administration, University of Phoenix
Bachelors of Arts, Economics, University of St. Thomas

Victor Valley (Hesperia) Campus

Mark Bottorff
Campus Director
M.Ed., Student Personnel Administration, Western Washington University
B.A., Communication Theory & Psychology, Western Washington University
