Respiratory Therapy B.S. Degree

SJVC's Online Respiratory Therapy- Bachelor program is sequenced for work-life balance, offered online, and takes approximately 60 weeks to complete. The program is designed for the working Registered Respiratory Therapist who has graduated from a CoARC or CAAHEP accredited Associate of Science degree program and is looking for career advancement opportunities in leadership, education, research and critical care in the field of Respiratory Care.

What makes SJVC's BSRT program different?

SJVC's BSRT program features career advancement opportunities in leadership, education, research and critical care in the field of Respiratory Care. Our student designed capstone research project allows each student to identify an area of specialty interest, produce a proposal and then design a research project associated with the respiratory therapy specialty area. Additional core coursework assignments feed into the student's project that culminates with evidence of their accomplishments in a portfolio that can be shared with current and future employers.

What will I learn?

Graduates will be able to:

- 1. Articulate** various current professional and clinical roles and potential expanded roles related to the respiratory therapy profession including describing professional behavior, monitoring the quality of respiratory care outcomes and listing changes in technology.
- 2. Demonstrate** understanding of critical care pathophysiology to interpret pertinent clinical information and make recommendations for appropriate therapeutic intervention.
- 3. Demonstrate** the ability to access, interpret, and critically appraise relevant medical and other authoritative literature related to clinical practice, administration, education, and/or research associated with the respiratory therapy profession and potentially affect positive change within your department.

Admission Requirements

To be considered for admission to the Respiratory Therapy Bachelor Degree Completion Program, applicants must meet the following requirements:

- Hold an Associate of Science Degree in Respiratory Care from a CoARC or CAAHEP accredited Associate of Science degree respiratory therapy program
- Successful completion of a minimum of 70.0 units of lower division courses (may include lower division respiratory care coursework)
- Hold an active credential as a Registered Respiratory Therapist (RRT), and current unencumbered licensure as a Respiratory Care Practitioner (RCP) in California or in the state of current employment

Training Today for a Better Tomorrow
