

# Academic Complete

Unique quality starts here

## Academic Complete is a collection of scholarly ebooks from leading publishers

With coverage across all academic disciplines, it is an ideal foundation for a university ebook collection. Academic Complete is organized into 10 subject areas to enhance effective cross-searching with ProQuest® journal and archive resources and provide customers with access to more ebooks in the process.

Why settle for anything but the ebook subscription that stands for quality and innovation, first?

Academic Complete has unique advantages versus comparable aggregators today:

- A critical mass of scholarly content, now organized into 10 major academic subject areas and totaling over 128,000+ titles.\*
- More titles in key subjects including Business & Economics, Science, Medical, Computers, History, and Political Science.
- More unique University Press partners.
- More CHOICE Outstanding Academic Titles. In fact, Academic Complete itself has been named to the CHOICE OAT list as a platform.
- More Doody's Core Titles.
- The ability to automatically de-duplicate Academic Complete titles from your EBL Demand-driven Acquisition (DDA) consideration pool.
- Far fewer titles in full collection without duplicate editions.

*\*Nearly 123,000 titles with territorial rights Internationally; and nearly 124,000 titles with territorial rights in Canada.*

## Academic Complete offers unique content value plus unique workflow and user advantages designed to drive research output and deliver return on your library's investment

- Prove return on your ebook investment to key stakeholders through detailed usage data and reporting.
- Offer unlimited, multi-user access 24/7, both on and offline.
- Provide patrons with a platform built for ebooks—delivering on researchers' needs for highlighting, note-taking and thoughtful display of search-within-book results, to aid discovery of relevant content.
- Academic Complete includes DASH!™ (Data Sharing, Fast) for uploading and integrating your own digital repositories.
- The ability to drive discoverability and usage of Academic Complete and all library holdings by displaying titles prominently on the library catalog or Facebook pages via the enhanced Academic Complete plus Book Display Widget from LibraryThing for Libraries™.
- Provide superior discovery of titles by utilizing built-in integration with the Summon® service and the ProQuest platform.
- Streamline workflows to make discovery, selection, acquisition, and management of ebooks simple.
- Facilitate research outcomes with a Reader, developed with a focus on user-centered design, and extensively user tested with researchers.
- Integrate your subscription with additional titles—including those acquired or accessible through models such as DDA, Short-term Loan (STL), and Perpetual Archive.
