	Mr. O is a great teacher who makes learning easy and is willing to help us all out.  I greatly enjoy the class and learned a lot. What I would absolutely suggest is he use different testing material.  On EVERY test, there was a question that was either completely wrong, incomplete, or written so poorly th it was nearly impossible to understand.  These tests are clearly not written by math teachers, and therefore have ambiguous wording.  To me, this shows that he is not fu prepared for the class, although he is prepared for everything else, since he didn't go over the test before giving it to make sure it was properly formatted and understandable. Either a different source should be used, or he should make his own tests since they are only 10-16 questions long.
