

Clock Hour

For institutions that represent their training in clock/contact hours, a clock hour is defined as a 60-minute span of time, with no less than 50 minutes of actual class instruction. Students must be given breaks which represent sound educational practices. No more than 1.0 clock hour can be assigned to any 60-minute period.

Total Clock Hours

All hours of instruction representing the length of the full program which include lecture, laboratory, and externship.

2. At least an equivalent amount of work as required in the #1 above for other academic activities including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours; or
3. Institutionally established reasonable equivalencies for the amount of work required in #1 above for the credit hours awarded, including as represented in intended learning outcomes and verified by evidence of student achievement and in accordance with accreditation standards.

Clock Hour to Credit Hour Conversion:

For financial aid purposes, except in certain cases specified by USDE, the method of converting clocks to credit hours for lecture, laboratory, and/or externship/internship is as follows:
