ADDITIONAL INFORMATION

Skills: I have had over 20 years of experience in a veterinary clinic setting as a technician, working at the front counter, and working with sales representatives. I have also worked as an inside sales representative for a veterinary supply company. I have also worked as a Veterinary Technology Instructor at a technical college for several years and have done countless presentations in that time.

SUMMARY OF QUALIFICATIONS

- 20+ years of veterinary clinic experience including sales, inventory, front desk, and laboratory skills.
- Expanded my sales territory as inside sales rep
- Helped students succeed and stay in school by tutoring and mentoring, sometimes after school hours.

PROFESSIONAL EXPERIENCE

Oct 2014 - Present

Veterinary Technician Instructor
San Joaquin Valley College – Fresno, CA, United States

Responsibilities include performing lectures to enhance students learning, assisting and supervising students' use of laboratory equipment, blood draws, catheter placements, laboratory procedures, X-rays, and surgical assistance on privately owned and school owned animals. Give exams to assess students' knowledge of subjects being taught. Keep track of students' attendance, grades and skill levels by use of a written grade book, computer generated grade book and rubrics when necessary. Demonstrate use of organizational skills and time management by keeping lecture notes, grades, tests, quizzes and all other curriculum in order.

Jan 2013 - Present

Sales, Office Staff
Maverick Helicopter – Grand Canyon, AZ, United States

Responsibilities include making reservations, answering phones, customer service, computer work, sale helicopter tours and merchandise, check in guests for same day tours, collect payments and issue refunds when necessary. Keep work area neat and clean, demonstrate excellent organizational skills, keep track of and file paperwork. Help keep gift shop areas clean and organized. I worked in the deli/coffee shop two days a week. Also worked as ground crew fueling, cleaning helicopters and loaded guests safely in and out of them.

Oct 2014 – Aug 2015

Veterinary Technician Instructor
San Joaquin Valley College – Fresno, CA, United States

Responsibilities include performing lectures to enhance students learning. Assisting and supervising students' use of laboratory equipment, blood draws, catheter placements, laboratory procedures, X-rays, and surgical assistance on privately owned and school owned animals. Give exams to assess students' knowledge of subjects being taught. Keep track of students' attendance, grades and skill levels by use of a written grade book, computer generated grade book and rubrics when necessary. Demonstrate use of organizational skills and time management by keeping lecture notes, grades, tests, quizzes and all other curriculum in order.

Oct 2012 – Jan 2014

Transportation Desk Supervisor
Xanterra Parks and Resorts – Grand Canyon, AZ, United States

Responsibilities include answering phones, computer work, customer service, selling guided bus tour tickets, and mule rides for the same day or the following day. Also check guests in for mule rides, including going over requirements, rules, and waivers. Print tickets for guided bus tours for guests and advise them of the departure and meeting times and places. Contact Grand Canyon Airport to check on departure times for airplane and helicopter tours for guests. Communicate with Phantom Ranch on a daily basis to keep track of lodging and meal reservations. I also had cash

handling duties with this position. Supervise employees and handle any complaints and/or customer service issues in a professional manner.

May 2011 – Sep 2012

Veterinary Technician Instructor
San Joaquin Valley College – Fresno, CA, United States

Responsibilities include performing lectures to enhance students learning. Assisting and supervising students' use of laboratory equipment, blood draws, catheter placements, laboratory procedures, X-rays, and surgical assistance on privately owned and school owned animals. Give exams to assess students' knowledge of subjects being taught. Keep track of students' attendance, grades and skill levels by use of a written grade book, computer generated grade book and rubrics when necessary. Demonstrate use of organizational skills and time management by keeping lecture notes, grades, tests, quizzes and all other curriculum in order.

Jul 2010 – May 2011

Inside Sales Representative
Lextron Animal Health – Visalia, CA, United States

Under direction of Senior Sales Representative, responsible for selling and servicing new accounts, creating new accounts and performing basic office functions. Build relationships to provide repeat business and excellent customer service, call customer and new prospects for sales generation, meet and exceed assigned sales goals. I also picked and packaged orders when needed, and helped with inventory in warehouse.

May 1991 – Jun 2010

Registered Veterinary Technician
Kingsburg Veterinary Clinic – Kingsburg, CA, United States

Perform small and large animal restraint, dental prophies and extractions, CO2 laser prep and maintenance, vaccinations, venipuncture, IV and urinary catheters, fluid therapy, lab testing, surgical assistance, radiographs, answering telephones, electronic and paper filing. Responsibilities included maintaining surgical and radiographic logs, placing small orders including dog food and supplies, teaching computer skills and cornerstone program to staff. Perform suturing, casting and splinting, health exams, cleaning and other janitorial duties.

EDUCATION

Jan 1993 – Jan 1994

San Joaquin Valley College, Fresno, CA, United States
Certificate in Veterinary Technology

May 1991

Immanuel High School, Reedley, CA, United States

High School Diploma earned

Jan 2012 – Present

University of Phoenix, Phoenix, AZ, United States
Associate of Arts in Business Management

Waterhouse Animal Hospital

1115 E. Champlain Dr. Fresno, CA 93720

(559)434-4000

Practice Manager: Erika Hultquist, RVT, CVPM

Veterinary Technician

January 2001 to Present

While at SJVC, I became familiar with Veterinary Dentistry and the importance of the role a technician could play in the care and health of a patient. A position became available at Waterhouse Animal Hospital for a Dental Technician, I aggressively got the position and made the decision to leave teaching to pursue this specialty position with the hopes of "someday" getting my specialty credential.

My current position is as a primary veterinary dental technician as a part of a team of trained technicians and staff that provide a high level of care for dental cases including but not limited to: pediatric dentistry malocclusion recognition and evaluation, recognizing and treatment planning for periodontal cases and working with Dr Patricia Frost-Fitch, DVM, DipAVDC to manage more advanced dental cases for Root Canal Therapy, Vital Pulpotomy, Light Cure Restorations, Feline mucositis, advanced periodontal disease, and oral masses/tumors.

Client communications and patient treatment and care planning. Discussing home care options.
Demonstration of home care techniques and products.

Anesthesia of dental care patients, working with the staff veterinarians to manage difficult anesthetic events and problem solving during anesthesia.

Full mouth radiographs of both canine and feline patients with a CR digital radiographic equipment.
Ultrasonic and Hand scaling, polishing and charting of the oral cavity. Simple extractions and suturing gingiva post extractions.

College of the Sequoias

Tulare Center for Agriculture and Technology

Dolores Vezzolini, Continuing Education-Program Coordinator

(559)278-0418

Summer Vet Camp Designer and Coordinator 2008 – 2011

***** Named the 2008 Outstanding Non-Credit Program by the University Continuing Education Association (UCEA) Region West.***

Summer Vet Camp is a young person's ticket to the real world of Veterinary Medicine. Veterinary experts will be wowing kids with hands-on experiences, live animals, technology demonstrations and labs, and how to prepare for a career in Veterinary Medicine. A team of qualified veterinarians and veterinary technicians will lead the program. Discover your role in this dynamic field!

Outcomes: 1. Observe and perform physical examinations, recording data in patients' charts. 2. Perform lab diagnostics. 3. Learn basic comparative anatomy of several species. 4. Explore pet health care issues. 5. Observe ultrasound exam on an animal and study radiographs. 6. Monitor, evaluate and chart a patient's treatment. 7. Encounter exotic and pocket pets. 8. Discover how veterinarians use math and science skills. 9. Interact with veterinarians actively working in the field. 10. Experience application of bandages. 11. Understand basic pharmacology abbreviations. 12. Investigate career opportunities in veterinary science. 13. Learn basic routes of medication administration. 14. Participate in mock surgery simulation.

San Joaquin Valley College - Fresno

295 E Sierra Ave, Fresno, CA 93710

Veterinary Emergency Service, Inc.

1639 N Fresno St., Fresno, CA 93703

(559) 486-0520

Supervisors: Brian and/or Susan Andreoni

Veterinary Assistant/Registered Veterinary Technician

1986-1993

A 24hour emergency and critical care veterinary hospital. VES is owned by approximately 20 community veterinarians, serves over 150 referring veterinarians, and employs over 20 team members.

VES offers state of the art technology and full service facility to serve after hour emergency and continual critical care.

As an "On the Job" trainee, I was exposed to a tremendous environment of learning and application of high level veterinary medicine. I mastered many areas of emergency and critical care medicine including but not limited to: surgical nursing, diagnostic imaging, clinical lab procedures, pharmacology, fluid therapy, restraint and handling, critical care assessment and management, nutritional evaluation and implementation, wound evaluation and care, bandage application and care, isolation protocols, client communications, legal medical documentation.
