[1] Degree must be from a regionally accredited college or university in major discipline or related discipline. Non-U.S. degrees require an official equivalency report that identifies the institution(s) attended, dates of attendance, credential(s) earned, and the U.S. educational equivalent. (NOTE: It is recommended that the applicant uses the International Education Research Foundation at http://www.ierf.org/ and requests a "General Report." The applicant bears the expense of the report.

[2] The certificate numbering system (i.e., 220-801) change whenever an exam is updated, generally every three years; this table reflects the current certificates.
